sale

STOCKMEN'S WEST  
DICKINSON, ND  
2:00PM (MST)

**GENERAL INFORMATION**

**SALE LOCATION:**

Stockmen's West Livestock  
Dickinson, ND | 701-225-8145

**SALE DAY PHONE:**

701-225-8145  
701-260-2579 (Rusty) | 701-260-8277 (Arthur)

**PRE-SALE INSPECTION:**

Bulls can be viewed at Ridl Farms prior to March 4th and at Stockmen's West thereafter. Bulls will be penned in the large pens to the south-east Saturday and Sunday and brought up top Monday afternoon.

**HEALTH:**

All bulls have been given 7 way Somnus, foot rot vaccine, Pinkeye vaccine, and Vista 5 and poured. Health papers will be furnished for bulls going out of state. All bulls selling have passed a complete breeding soundness exam and are guaranteed to be breeders.

**SEMEN INTEREST:**

Ridl Angus has the right to retain 1/3 semen interest in any bulls sold.

**GENETIC DEFECTS:**

All bulls Selling are Free of the genetic defects CA, DD, NH, AM, M1, and D2 by test or by pedigree. Some bulls are possible carriers of OH and are clearly marked in the catalog. More information is available on the defect on [www.angus.org](http://www.angus.org)

**MAIL BIDS:**

Anyone unable to attend the sale may call or send bids to any of the owners, ring men, or auctioneer.

**DELIVERY:**

Haul your bull home sale day are receive a 75\$ per head discount. Ridl Angus will offer free delivery on bulls within 300 miles from the farm and delivery will take place promptly after the sale. Unless other arrangements are made.

**FEEDING ARRANGEMENTS:**

We will "feed um till you need um" at no extra cost. Bulls returning to Ridl Farms for wintering will be handled and cared for as if they were our own but are the property of the buyer with the buyer taking all risk and responsibility promptly after the sale. Ridl Angus will not be responsible for bulls if injury occurs. Injury is an insurable risk and Ridl Angus will not be held responsible for any injury. We highly suggest insuring all bulls. Bulls wintered at Ridl Farms are to be picked up at the farm. Please call ahead to make loading arrangements.

**FEED:**

Bulls were feed a ration of chopped hay, 4lbs corn, 4lbs wheat midds, corn silage and mineral supplements. We strive for a 3.5lb average daily gain.

**TERMS:**

Bulls sell under the terms and conditions of the American Angus Association. Terms are available at [www.angus.org](http://www.angus.org)

**LUNCH:**

FREE BEEF LUNCH STARTS AT 12:00

**AUCTIONEER:**

## **DICKINSON, ND**

### **Cattlemen:**

It is our pleasure to welcome you to our 20th annual production sale. Sale will be held Tuesday March 7th at Stockmen's West in Dickinson ND starting at 2:00 MDT (after the stock cow sale). 55 registered yearling angus bulls will be offered. Thank you to past and future customers, we look forward to working with you.

It is our goal to produce good, high volume, growthy cattle with high maternal traits and good dispositions. The bulls are raised on mother's milk and grass alone, No Creep Feed. The bulls were weaned on September 15th and started slowly on chopped hay, corn silage, and distillers; slowly working them up to the ration listed on the next page. We don't over feed the bulls, shooting for a 3.5lb average daily gain to help insure longevity and breeding soundness.

All the yearling bulls selling have i50k DNA enhanced EPD's. They are freeze branded for better identification, and have passed a breeding soundness exam. Again, this year we offer the same feeding arrangements we have always offered and would also like to help with delivery if you can take your bulls right away. Haul your bull home sale day and a credit of \$75 per bull will be given.

Feel free to stop out and go through the bulls at the farm until Saturday March 4th and at Stockmen's West thereafter. (Saturday and Sunday the bulls will be in the large pens to the southeast of the barn) Please call if we can be of any assistance or for more information, we look forward to showing you the bulls and talking cattle. I hope you enjoy the new look to our sale catalog and check out our new website, [www.ridlangus.com](http://www.ridlangus.com) Join us for a complimentary noon lunch on sale day.

Thanks

Ridl Angus

Arthur and Cindi Ridl

# Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	21	Docility	12
Birth Weight	13	Heifer Pregnancy	10
Weaning Weight	19	Mature Weight	13
Yearling Weight	22	Carcass Weight	10
Milk	14	Carcass Marbling	9
Yearling Height	11	Carcass Rib	11
Yearling Scrotal	14	Carcass Fat	12
Dry Matter Intake	18		

## How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

- A rare and significant individual that gives the indication of being a phenomena. He was the lead bull in the 2016 National Western Stock Show Grand Champion Pen of Three Bulls and the \$50,000 top-selling bull in the Frey Angus Ranch Sale in North Dakota.
- Individual Performance: BW 78 lbs., BWR 94, 205 wt. 870 lbs., WWR 105, 365 wt. 1,495 lbs., YWR 104, adj. yearling scrotal measurement 40 cm.
- Phenotypically flawless, being acceptable in size, correct in his structure, sound in his movement to be functional on the range and in the feedlot and still have a desirable end product.
- His sire, Young Dale Xcaliber 32X offers outcross growth genetics (WW +81 and YW +125) from Barry Young's herd in Canada with great performance and that pleasing appearance that is so hard to come by together.
- Take advantage of the production look with good bone, big hip, power with a great head, smooth shoulders with that special pattern that is hard to find or duplicate.
